April is National Safe Digging Month

Whether it's a big project like adding a swimming pool or just planting some new shrubs around your yard, make sure you **call 8-1-1 before you grab the shovel!** Your property may contain underground utility lines, and knowing where utility lines are buried can help you avoid injury, service outages, and costly repairs.

Call 811 a few days prior to digging, and you'll be routed to your local 811 call center. Tell the operator where you'll be digging, what type of work you're doing, and when. Within just a few days, local utility companies (like us) will visit your site and mark the location of any underground lines, free of charge. Each utility type is marked with a specific color:

Red - electric
Yellow - natural gas
Orange - telecommunications
Blue - water
Green - sewage

April was designated as National Safe Digging Month by Common Ground Alliance to highlight the importance of calling 811 before you dig, and April (which is the start of spring and known for planting and working around the house), is the perfect time to promote it. Visit www.call811.com or call 811 to get started with a location request. **Safety is in your hands.**

2024 Water Quality Reports are Now Available

Liberty is committed to providing high-quality water and reliable service to our customers and communities. We have an exceptional track record when it comes to water quality and drinking water regulatory compliance.

We invite you to read our latest Water Quality Report for your community. You can find it at www.libertyenergyandwater.com or by scanning the QR code.

Work Zone Safety Week

Work zones are filled with people who have families and friends expecting them to get home safely. And we all have a role to play in getting those individuals home to their families every day. Work Zone Awareness Week, April 21-25, 2025, is a time to reflect on the laws and importance of keeping those working on our roads safe.

Because of the nature of our business, the majority of field work occurs in streets or near the side of the road. To help keep employees safe, Liberty sets up work zones. Please help us maintain our crews' safety by reducing your speed, paying attention to signs, and moving to a different lane when possible.

To watch a video demonstrating the importance of being vigilant around work zones, scan the QR code.
