

## New Year, New Savings Goals?

**We've got an app for that.**

- Manage your account – anytime, anywhere
- Track and compare your usage
- Find programs to help you save

Scan the QR code below to learn more or head to the Apple App Store or the Google Play Store to download the Liberty My Account app today!

## Focus on Your Finances in the New Year

If you are experiencing financial struggles after the holiday season, you are not alone. While we may not be able to help with your credit card bills, help with your water bills may be available. With Levelized Budget Billing, customers can spread increased water bills from holiday gatherings over the entire year to help make bills more manageable.

There are also state and federally funded programs available to income-eligible customers, such as the Home Energy Assistance Program (HEAP). Learn more about what options are available to you by visiting the "Customer Service" drop-down menu at [www.libertyenergyandwater.com](http://www.libertyenergyandwater.com). While you are there, be sure to check out other hassle-free programs we offer, like Paperless Billing and AutoPay!

## Conservation

## A Running Toilet Wastes Water

Did you know that your toilet could be using more water than you think? An older toilet can use up to seven gallons of water per flush. That can add up to an average of 2,000 gallons each month for a household of three people. By replacing your toilet with a newer model that might only use 1.6 gallons per flush, you could save more than 14,000 gallons of water per year!

Household leaks can waste 180 gallons of water per week and toilets are often the culprit. Liberty customers can get toilet tank banks and leak detection tabs for free by visiting [www.libertyenergyandwater.com](http://www.libertyenergyandwater.com) and selecting the "Tools and Technology" page under the "Smart Water Use" drop-down menu. You can also scan the QR code.
